## Relocation Services

---

MaxGroup, through our affiliates, has the most advanced and personalized relocation services available. We personally take great care in assisting each family with the step-by-step process which makes each move smooth and hassle-free. Our system helps you and your family from the first phone call through the move, without obligation or expense.

After being introduced to you and your family, the specialist will send a relocation package tailored to your individual needs. This may include information on housing costs, cost-of-living comparisons, schools, child care, churches, recreational activities, transportation, moving costs or other areas of interest. The relocation specialist will also plan a tour to introduce you to the area when you arrive.

NES takes great pride in giving our candidates the service and support they deserve as well as insuring that their move is a positive experience. Due to our large volume of moves our affiliate has negotiated very attractive moving contracts with van lines across the nation.

Our candidates will receive:

- Substantial discounts on moving
- Guaranteed dates and VIP service
